

Venue Cleaning and Hygiene

Our new measures developed in collaboration with Cleanology and Navitas Group.

Across all etc.venues, clients and delegates can expect enhanced cleaning and hygiene standards that exceed the guidance outlined by the local government and health organisations.

We commit to:

1. Close collaboration with Cleanology, our cleaning partner for over 15 years.
2. Each venue audited by Navitas (formerly European Safety Bureau) - **Covid Control Certification Scheme**.
3. New Hygiene Guru – team member appointed at each venue to ensure standards are met.
4. Dry spray disinfection – deep clean of each venue using the latest techniques.
5. Triple clean – all high touch items, door handles, switches and AV controls will have a triple clean.
6. Both back and front of house – 15-point cleaning plan for both areas in the venue carried out daily.
7. Touch free soap – dispensers upgraded in all toilets.
8. Trained team – new modules completed by all event team members,
9. Free sanitisers – mini sanitisers offered to delegates as part of the package
10. Discrete signage – informative but not imposing throughout the venues.

* Please note these are subject to change and availability.
